## SUPERINTENDENT'S REPORT

---

To the School Board and Citizens of Richmond

I have the honor to submit, herewith, my ninth annual report.

**BUILDINGS AND GROUNDS:** The school buildings were thoroughly cleaned during the summer vacation but only very minor repairs were made. We should not put off any longer laying a new floor at the Four-Corners School. I urge you to consider the need for more adequate playground space at both schools. It would seem that, in the open country where land values are low, we should provide for our children some place to play other than in the highway. This point of view and the reasons for it need no lengthy elaboration on my part. Provision is made in the school warrant for you to express your decision. I hope it will be in the interest of your children. There should also be a well dug on the premises of each school so that at all times there is an adequate supply of good drinking water and ample water for sanitary and hygienic purposes. As soon as money is available, suitable sanitary toilet facilities should be installed. I would recommend an approved type of chemical toilet.

**TEACHERS AND PUPILS:** We have the same teachers as last year. I feel that the standard of the schools has been maintained and that our schools compare favorably with the run of small open country schools.

I wish to express my very deep appreciation to the School Board, teachers and pupils and to the parents and patrons of the schools for their continual loyalty and cooperation.

Respectfully yours,

WESLEY H. DOUGLASS,

Superintendent of Schools.

Winchester, N. H.

February 19, 1934.

## THE PRESIDENT'S CHALLENGE

This crisis can be met, but not in a day or a year, and education is a vital factor in the meeting of it.

—FRANKLIN D. ROOSEVELT.

\* \* \* \*

The most important question requiring an answer today at the hands of the American people is: What are we going to do about our public schools? Shall we maintain them on such a basis as will give our children an education in those essentials absolutely necessary to equip them as individuals and as citizens to lead such lives as men and women must be equipped to lead in a self-governing republic of free men, or are we going to let them slip back into an era of unenlightenment, bigotry, and ignorance?

—HAROLD L. ICKES, Secretary of Interior.

\* \* \* \*

Ever since I was a child I have been meeting public problems . . . to come finally to the conclusion always that education furnishes the only solution. . . . All the problems that arise—problems requiring either a new approach to an old evil, or a new remedy for an evil that has taken a new form in the changing kaleidoscope of social development—all these have only one answer. That answer is education.

—NEWTON D. BAKER, Journal of

Adult Education, June, 1931.

\* \* \* \*

We have commended the government for its program of public works and we have shown that, if such federal participation is warranted for roads, dams, and waterworks, it is equally justified for schools. We know that education is mostly labor and public service. We know that it is self-liquidating. . . . By the true interpretation of the traditions of the past, by the needs of normal times, by the urgency of the depression we conclude that substantial support of our public schools . . . should at once become a part of the program for recovery.

—WILLIAM F. RUSSELL.
